Since fall 2021 when the traffic control devices was put in place, we have tracked only one motor vehicle accident at BSH and OAR. No injuries were reported in this incident. Saugatuck Townships implementation of digital speed signs on BSH and the flashing STOP sign at OAR have greatly reduced MVI's. This a great example of Community Risk Reduction process by Saugatuck Township. Strong and effective Township leadership identified and prioritized local risks, integrated collaborative resources and took action to mitigate the loss of life and property.
